Last, but not least:

For North American riders, a rental from Bosenberg for up to 4 weeks duration is cheaper, less complicated and far less hassle and time-consuming with customs and airport freight shipment authorities than trying to air ship your own bike. Be sure to add on your hidden costs: green card third party liability, bonding and transport insurances, extra travel days due to early arrival and delayed departures, additional hotel, travel and eating expenses, own model wear and tear, transport shipping damages, services and maintenance, paperwork processing delays, unexpected delivery delays etc. A Bosenberg rental from one of 5 different gateways in 3 countries and over 50 models offer a better way for your vacation. Fly in, ride and fly out for a great ride in the heart of Europe.
