

Bad Kreuznach, Germany, January, 2012

Dear Riding Enthusiasts,

Whether you are a first time rider in Europe or a seasoned Eurorider, we offer a first-class operation finely tuned year after year to meet your high expectations. We concentrate on Alpine regions for riding adventure and excitement, but other noteworthy regions are not overlooked.

Now in our 25th year, we operate out of Germany to run our tour and rental operations, but we speak your language, motorcycling and otherwise. We are dedicated to provide you an authentic, refined, smooth-running and unforgettable riding vacation from start to finish.

You want to ride some of the best roads in the world, and we have found them. In the Alps, from the western peaks to the eastern ranges, in wine regions or enchanting valleys, we have the best routes for you to ride by day and great places to park your boots at night.

As you know, your mount is just as important as the roads. That's why we offer tour, sport-tour, sport, cruiser and dual-sport models. Ride the motorcycle you own or a bike you have always dreamed about. It's your choice, not ours. We offer over 40 models for all riding styles and all rider sizes.

Small groups of up to 10-12 motorcycles offer a personalized form of touring not found elsewhere. Our hotels are selected for their historic walls, interesting locations, traditional hospitality, service and old-world charm. We guarantee all tour departures and now in the 21st century, you use the Euro in the European Community and spend more time riding.

Take a few minutes to review our Alpine itineraries and then join us for innovative, spirited and exciting touring. We are confident one of our tours can meet your riding needs and interests. Allow us to show you why we only offer great rides in the heart of Europe!

Best Regards from the Nahe valley and Germany,

Leon
